

BRIEF SUMMARY

Hi, I'm Vikas Thapa, a passionate and driven third-year Computer Engineering student from Dr. D. Y. Patil Institute of Technology, Pune. I have a strong interest in software development and enjoy building web-based projects using HTML, CSS and Javascript. I'm currently focused on strengthening my skills in Data Structures and Algorithms using C++, aiming to become a better problem-solver and programmer. I'm always eager to learn, take on new challenges, and grow both personally and professionally. In my free time, I love playing cricket, experimenting with cooking, hitting the gym

KEY EXPERTISE

HTML, CSS, Javascript, C++, Data Structure & Algorithms, Problem Solving

EDUCATION

Dr. D. Y. Patil Institute of Technology B.E. - Computer Engineering CGPA: 7.94 / 10	2026
Govt Boys Higher Secondary School, Jammu 12 th JKSBSE Percentage: 91.60 / 100	2022
Muni Kamal Public High School, Jammu 10 th JKSBSE Percentage: 77.20 / 100	2020

PROJECTS

Job Recommendation System

Key Skills: Python (Flask Framework) HTML, CSS, JavaScript JSON Data Handling Frontend-Backend Integration

Developed a web application using Flask (Python) that takes user input via a form and displays intelligent recommendations based on a JSON dataset. The project uses frontend technologies (HTML, CSS, JavaScript) for user interaction and a Python-based backend to process and serve dynamic data. The application demonstrates integration between frontend and backend, data handling via JSON, and user-friendly UI for real-time interaction.

PERSONAL INTERESTS / HOBBIES

- Cooking, Weight Training, Cricket, Editing

PERSONAL DETAILS

Gender: Male
Marital Status: Single
Current Address: Vallabh Nagar Pimpri pune, Pune,
Maharastra, India - 411018
